ADDITIONAL COSTS/FEES:

The costs/fees incurred to implement or use Evolution EHR 3.0 include:

- For new customers, a one-time license fee for Evolution Core and Optional Modules including Evolution HER, applies.

- Implementation fees includes one-time service fee for installation, configuration, training and operational support.

- Established customers do not pay implementation fees for Evolution EHR v.3.0 up-date unless out of scope services (additional training and support hours) are requested in which cases a one-time service fee may apply.

- Established and new customers may pay for customization or modifications requests with an initial and/or on-going monthly fee.

- Third party applications for specific functions as; e-prescribing, medical vocabularies, drugs clinical checking, decision support tools, patient portal and health information exchange capabilities, requires an active annual license fee, a maintenance fee or transaction fee. Those agreements are included within the master agreement contract with Infomedika.

Third parties required in initial purchased are:

Medispan Database by Wolter Kluwer's	Integrates to support clinical decisions and improve patient safety with updated drug files and clinical checking functions. • Monthly updates are provided. • Requires an annual license fee.
Dr. First for e-prescribing function	• Evolution EHR 3.0 integrates seamlessly with R'Copia to provide a safe and efficient e-prescribing functionality. • Requires a one-time license fee and a recurring maintenance fee by institution or provider in the ambulatory setting. • R'copia is also a certified technology required to complement Evolution-EHR for attestation purposes.

EBSCO Clinical Decision Support tools for physician, nurses and patient education.	**Includes**: • **DynaMed** which is a clinical information resource, evidence based, used by physicians to answer clinical questions quickly and easily at the point of care. • **Nursing Reference** is integrated into Evolution HER to save time and streamline workflow. It provides nursing staff with nursing best practices. Quick access to evidence-based point of care resources. Available in Spanish. • **Patient Education Reference Center** is integrated into Evolution EHR, allowing quick access to patient education information while viewing the patient's medical record. Requires an annual license fee, and internet access.
IMO	Medical vocabulary is available to facilitate the search and standardization of medical terms and conditions. Simplifying data documentation and data capture. Requires an annual license fee and internet access.
CQM	• Integrated into Evolution EHR. It allows the automatic calculation for numerators and denominator for the clinical quality measures. • Functionality is included in Evolution EHR license fee. • Additional transmission fee may apply.
Patient Portal	Allows patient to view, download and transmit their clinical information. Contract thru Infomedika requires an annual license fee and an additional transaction fee.
Transitions of Care	**Secure HIT** (HIE) to receive, display and incorporate, create and transmit transition of care documents. A separate license agreement with HISPs is required fees may apply.
Interfaces	Interfaces fee for optional modules and /or integrations may apply. Internet connection is required.

CONTRACTUAL LIMITATIONS:

- The use of Evolution EHR requires an active Master Software Agreement with Infomedika, Inc. An associated maintenance agreement is also required for One-time license. All licenses are described in a Program Description Annex that includes the name, fees and owner of the license.
- For third party products an annual license fee may apply.
- Other Third-party integration capabilities that the products previously describe, must be verified with Infomedika.
- No other contract limitations are recognized.

TECHNICAL OR PRACTICAL LIMITATIONS:

- Evolution EHR v.3.0 requires Microsoft SQL Enterprise Edition 2014 (64 bit).
- Internet connectivity is required.
- Monthly up-dates for drug files is recommended.

ONC HIT certification conferred by **Drummond Group does not represent an endorsement of the certified EHR technology by the U.S. Department of Health and Human Services
