## What do Item Maintenance columns: On Hand, On SO, On PO, On Bk Ord, Committed, On WO, Req for WO, Available, In Shipping, and On Hand Less Ship mean?

### Products - Sage 100

#### Description

What are the column quantity values on the Main Tab or Quantity tab of Item Maintenance in Sage 100?

What do the Item Maintenance columns: **On Hand, On SO, On PO, On Bk Ord, Committed, On WO, Req for WO, Available, In Shipping,** and **On Hand Less Ship** mean?

#### Resolution

- **On Hand** - Quantity considered to be in stock in Inventory
- **On PO** (On Purchase Order) - Quantity in open Standard purchase orders (but not Master Orders or Repeating Orders)
- **On SO** (On Sales Order)
  - Quantity in open Standard and Back Order sales orders (but not Sales Quotes, Master Orders, or Repeating Orders), plus
  - Quantity in unpasted 1-step invoices (invoices not linked to a sales order),
- **On Bk Ord** (On Back Order) - The quantity on back order in sales orders
- **Committed** - Appears on the Main tab, Quantity tab, and the Cost Detail tab;
  - When on the Main or Quantity Tabs it refers to Committed Quantities, like on SO or WO etc...
  - When on the Cost Detail Tab it refers to Distributed Quantities, like the quantity of specific Lot or Serial numbers committed in Sales Order invoices or shipping entries.
- **Note:** If the **Enable Lot/Serial Distribution check** box is selected in **Sales Order Options, Line Entry** tab, then this also includes specific Lot or Serial numbers committed in open Standard or Back Order sales orders.
- **On WO** (On Work Order) - The quantity in open work orders for the item, if the Work Order module is integrated
- **Req for WO** (Required for Work Order) - The quantity of the item required by open work orders that use the item as a component to make a parent item, if the Work Order module is integrated
- **Available** - The Quantity **On Hand** less than the quantity **Committed**
- **In Shipping** - The quantity entered for shipping in Sales Order invoices or shipping entries (regardless of whether the item is a Lot or Serial item or not)
- **On Hand Less Ship** - The Quantity **On Hand** less the quantity **In Shipping**
